

# Is there a Creator-God?

---

## Evolution / Faith

1. Design leaves no excuse. Our faith is not blind.
2. What “kinds” did God make?
3. We do not object to microevolution.
4. Our issue is with any natural explanation for our origin.
5. Romans 1:20-21 “ No Excuse”
6. The move from the methodological naturalism to philosophical naturalism.
  - a. Rules out God from the start.
  - b. Guarantees a theory of evolutionary origin.
7. The problem of time.
8. Omphalos – belly button theory.
  - a. It is impossible to create without an appearance of history.
  - b. Some examples.
9. We need to be humble. We do not know everything about Creation.
  - a. The Bible is not a book of science.
  - b. The Bible teaches one how to go to heaven, not how the heavens go.
10. Are Lutherans anti-intellectual?
  - a. Modern science and the Reformation grew together.
  - b. Contributions continue to be made.

## Summary

Two big issues:

Explaining without God – Nature says otherwise.

Time – The Creation was mature, and ongoing

BUT to know there is a Creator is not enough, get to the center of our faith, Jesus
